

# *1W Historical Village Excursion*

## *Exploring Old School*

We started our day with a visit to “Old School”. During this time we participated in an old school parade, where our friend Colt was chosen to raise the flags. We sat in an olden day classroom and learnt about how school was in the past, we used a slate board and chalk, looked at olden uniforms and ink/feather pots and learnt all about what it was like to get the cane.

# Our learning rotations...

We enjoyed 4 learning rotations after some morning tea.

- Train ride where we were held up by a bush ranger cracking a whip.
- Printing station
- Power and Pumps
- Blacksmith

## Taking a walk through the past...

We loved our free time. We got to explore olden day homes, hospitals, police stations, jails, post offices, shops, milking stations, butchers, bakers, olden day transport from the road, air and sea as well as exploring olden days machinery and house appliances.

The favourite was the old jail and bush rangers..
